NZWTA FLEECE TESTING REQUESTS NOW ON-LINE

As a fleece testing customer of NZWTA, we are pleased to advise you of the introduction of our new web based fleece testing request system. The on-line forms will allow you to request tests and order the tickets and bags for the samples, in one process, directly off the NZWTA website

<https://www.nzwta.co.nz>

Select the Fleece testing tab and scroll down to the On Line Request Form.

The request form is designed to:

- Provide faster response times;
- Ensure requests are correct ;
- Allow clients to check their requests before submission;
- Deliver immediate confirmation that the order has been submitted.
- Show price options for tests.

There are two parts to the process. Firstly we need to obtain some details about you.

Online Request Form

Contact & Address Details	
Name*	Postal Address*
<input type="text" value="Bill Smith"/>	<input type="text" value="Private Bag"/>
Telephone/Mobile*	Town*
<input type="text" value="06 835086"/>	<input type="text" value="Napier"/>
Email*	Post Code
<input type="text" value="bill.smith@xtra.co.nz"/>	<input type="text" value="4144"/>
Property Name*	
<input type="text" value="Big Hill"/>	
<input type="checkbox"/> Results will be emailed, tick here if you want a printed copy in the post.	
<input type="button" value="Next"/>	

The second part is to provide the identification and numbers of samples to be tested and the tests you will require.

Testing Requirements:

Note: Please complete this section for each group/mob that you want tested. If you have more than one group/mob for testing, use the "Add Another Group" button after entering the details of the first group to replicate this section for any additional groups.

GroupID* (e.g. Ewe Hoggets, Rams, Two-Tooths, Alpacas, etc)	Number of Samples* (Approximate number of ID Tickets Required)
<input type="text" value="Ram Lambs"/>	<input type="text" value="25"/>

Tests* - At least one test type must be selected:

Fibre Diameter (Micron) Testing

Laserscan – Includes Micron, CVD, curvature & %>30 micron (\$2.20 each)
 Histograms – One per sample (\$0.55 each)

Staple Length and Strength Testing

Length and Strength (\$7.00 each)

Yield Testing

Washing Yield (\$0.75 each)
 Additional Data Entry – Fleece Weights (\$0.50 each)

Other Testing (please specify - e.g. Colour, Airflow, OFDA, Bulk, etc)

Fleece Measurement Service

- For breeding and selection, progeny testing, and classing.
- Specialised laboratory based fleece testing equipment for:
 - Mean Fibre Diameter, SD, CVD and Comfort Factor using **LASERSCAN**.
 - Staple Length, Strength and position of break using **ATLAS**.
 - Clean Fleece Weight using washing yield
- Diameter measurements made on clean wool.
- Same equipment used for certification.
- Customised reporting.
