

* The data shown is produced from NZWTA test data from the 2012-13 to 2017-18 wool seasons.

* NZWTA tests a significant proportion of the NZ wool clip. Therefore the data is expected to be a close approximation of the overall profile of all wool across NZ.

* Data represents the proportion of bales in each category.

* Except where precluded by law, no responsibility can be accepted by NZWTA Ltd for any claim which may arise from any person acting on information contained herein.
